

ONIONS

INTRODUCTION

“Greenz” is Freshmax’s specialist onion marketing division. Our Greenz growers produce Red, Sweet, Mild and Brown onions in the rich red volcanic and river soils of the North Island. Our growers are totally committed to responsibly producing a first class onion and do so in full compliance with global food safety certification standards. Our onions have an excellent reputation and are in high demand in European and Asian markets, with shipments from late December through to June.
